

# 1 Main Heading

This is the introduction section with some styled text. We have **strong emphasis** and *italic text* for emphasis.

**Note:** This is an important note that stands out with custom styling using show rules.

## 1.1 Subheading

Here's a paragraph with justified text and proper line spacing. The styling rules make the document look more polished and professional.

- Item one
- Item two with a [link to Typst](#)
- Item three

## 1.2 Another Subheading

More content follows here with different styling applied through set and show rules.
